Projects

Language Finder   HTML | CSS | JavaScript

- Built an application that uses the OpenAI API request
- Implemented a text prompt and a box that stores the results from newest to oldest
- Developed various features to optimize user experience, including resetting the application, deleting a specific result, trying again, and a preset prompt button
- Created in a collaboration with a team member

Galaxy Animation   HTML | CSS | JavaScript

- Developed an interactive animated graphic using the HTML Canvas and JavaScript
- Outlined plans for the final product, including what it must have, should have and would be nice to have
- Implemented loop functions using JavaScript
- Developed in a collaboration with a team member

The Capitalist   HTML | CSS | JavaScript

- Developed an interactive webpage game using commented HTML and CSS
- Implemented various functions in JavaScript so the game is endless
- Validated webpage using W3C Validator and for mobile responsiveness

Experience

Graphic Designer - Temperos do Bem

2018 - 2021 :: Sao Paulo, BR

- Gathered all project requirements with 95% fidelity to client needs
- Developed user-facing features and addressed any design issues that arose
- Handled all composition, color, illustration, typography, and branding for client projects. Turned in projects an average of 5% faster than targets
- Developed graphic images and effects to achieve design goals
